

AEROCOMPACT®

AEROCOMPACT®

AEROCOMPACT, Inc. is now ETL listed for UL standard 3741!

Matthews, North Carolina, October 5th, 2023 – AEROCOMPACT US, a leading provider of PV racking solutions, is thrilled to announce a significant milestone in their commitment to excellence. AEROCOMPACT is now ETL listed for UL standard 3741 for the COMPACTFLAT S product line, a testament to AEROCOMPACT's commitment to the safety of first responders as well as our commitment to the success of our customers.

This listing reinforces our dedication to providing safe and reliable products and demonstrates that AEROCOMPACT's PV racking solutions meet the performance standards set by UL standard 3741.

AEROCOMPACT®

Our team has worked tirelessly to ensure that AEROCOMPACT's solar mounting systems not only meet but exceed industry benchmarks for safety, durability, and reliability. This achievement reflects our commitment to our customers, who trust us to deliver exceptional products that power a sustainable future.

What does this listing mean for our customers?

1. **Firefighter Safety:** Our customers can rest assured knowing our COMPACTFLAT S PV Hazard Control System is safe for our heroes.
2. **Minimized Material Costs:** Module Level Power Electronics (MLPE) can be eliminated from projects resulting in substantial cost savings.
3. **Reduced Labor Cost:** Accelerated installation and reduced O&M costs mean our COMPACTFLAT S PV Hazard Control System will save our customers money upfront and in the long term.

At AEROCOMPACT, we look forward to continuing to provide innovative and reliable PV mounting solutions that empower our customers to harness the power of the sun for the greater good. This listing is another step toward a brighter, more sustainable future.
