TECHNOLOGY ASSESSMENT

Aerocompact Bankability Report

Aerocompact, Inc.

Document No.: 10346876-HOU-R-01
Issue: C, Status: FINAL
Date: 17 August 2023

The Bankability Report offers a deep dive into the reliability and performance of AEROCOMPACT US's solar mounting systems. Undertaken by DNV a leading expert in assurance and risk management this report is a testament to our commitment to quality and innovation.

Key Highlights of the Bankability Report:

- In-depth analysis of the durability and longevity of AEROCOMPACT US racking products.
- Comprehensive data on performance under various environmental conditions.
- Third-party validation of bankability and reliability.
- Insights to help EPCs and Developers make informed decisions for their renewable energy projects.

"We are excited to share the Bankability Report with our partners," said Antonio Cintra, President at AEROCOMPACT US. "This report is a reflection of our dedication to delivering top-tier solar mounting solutions."
